

InterLock®

ADJUVANT

Get Every Drop Where It Counts.

We know the stakes are high with every spray.
That's why INTERLOCK® is engineered to give you the upper hand,
with technology that's as reliable as it is effective.

Why use INTERLOCK®?

- Reduces ultra and very fine spray droplets, so you're putting the right amount in exactly the right place.
- Increases droplet velocity at canopy height, reaching where it matters most.
- Enhances canopy penetration, for more comprehensive coverage on every application.
- Decreases drift and evaporation, keeping the benefits where they should be—not floating away.
- Works seamlessly with herbicides, fungicides, and insecticides, without increasing viscosity.
- Registered for both ground and aerial applications.
