

Take control of weeds in maize

CANTRON[®] 480 SC

Active Ingredient: **Mesotrione**

CANTRON[®] 480 SC provides selective systemic control of annual broadleaf and some grass weeds in maize. Absorbed through the foliage and roots, mesotrione moves through the plant to target growing points and disrupt weed growth.

Residual control for continued weed management

Broad-spectrum weed control in maize

Systemic action through leaves & roots

Pre- & post-emergence weed control

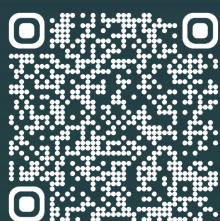

Wide range of registered tank-mix partners
